# 100 degrees energy storage 100kW

## Overview

---

A 100kW battery is a high-capacity energy storage solution designed to deliver 100 kilowatts (kW) of electrical power. These systems are primarily deployed in commercial and industrial (C&I) settings, where there is a critical need for dependable power storage and rapid-response. In an era of rising energy costs and increased focus on sustainability, investing in a 100kW battery storage system is a smart move for businesses and large residential properties. Designed to support residential properties, this 100 kWh home battery offers exceptional performance for large homes and energy-intensive. The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications. With its ability to store significant amounts of energy, it enables us to harness solar and wind power effectively, providing a reliable electricity source even when production is. Experience enhanced performance and smart thermal management with the Sunway 100kW/261kWh Liquid-Cooled Energy Storage System.
