

PEES Power Systems

Blackmax off grid power

Overview

A small, standalone off-grid power system, BlackMax offers up to 12. The BlackMax's main advantages are its low cost and capabilities for simple installation. If playback doesn't begin shortly, try restarting your device. What makes this solution even better?

The government will chip in for the cost of your panels when you use a local CEC certified electrician to set dwork for you. The solar panels, hardware, cabling, mounting equipment for tin roofs and electronics are expertly matched and assembled. The first Australian-made off-grid battery energy storage system approved by the Clean Energy Council, now with new and improved features. Safety instructions BlackMax Installation and Operation Manual **WARNING:** Working on the inside of the BlackMax system is restricted to qualified personnel.
