The advertisement features three white energy storage containers on wheels, arranged in a row. The background shows a house and a snowy mountain range. The containers are labeled with their capacities: 20 Kwh, 30 Kwh, and 50 Kwh. The text highlights features like higher conversion efficiency, communication capabilities (CAN, RS485, WIFI, 4G, Bluetooth), a thick shell for protection, and BMS customization support.

Overview

What is CRRC Zhuzhou Institute's energy storage system?

CRRC Zhuzhou Institute's new generation storage system, using 688Ah cells, offers standard 20-foot single-container capacities of 6. The world's largest rolling stock manufacturer says that its new container storage system uses LFP cells with a 3. The system also features a DC voltage range of 1,081.5 MW to 12 MW for onshore applications and 8 MW to 20 MW for offshore applications.
