

PEES Power Systems

Can mbabane power storage be used

LFP 12V 100Ah

Overview

The Mbabane energy storage project acts as the balancing weight, storing solar energy during peak production for use during evening demand spikes. With 42% of Eswatini's population still relying on biomass fuel, this initiative could be the spark that ignites nationwide. This initiative serves three critical needs: "Energy storage isn't just technology - it's an insurance policy for national development. " - Eswatini Energy Regulatory Unit The project's 48MW/128MWh battery energy storage system (BESS) uses lithium iron phosphate (LFP) batteries, chosen for their: Commercial energy storage systems now offer: "Our textile factory reduced diesel generator use by 80% after installing storage batteries. " - Plant Manager, Matsapha Industrial Site Let's examine three real-world scenarios where storage systems deliver value:

1. Water is pumped from the Thukela River, over the Drakensberg escarpment into the Wilge River, a tributary of the. With 68% of Eswatini's electricity currently imported from neighboring countries, the Mbabane 3 energy storage power stations mark a strategic shift toward energy independence.
