Degao tile roof with photovoltaic panels

Overview

Short Answer: Yes, you can install solar panels on tile roofs, but the process requires specialized knowledge and equipment to ensure proper installation and avoid damage to the roof. Installation Method Selection is Critical: The three primary installation methods (tile hooks, comp-out, and tile replacement mounts) each serve different scenarios. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more. Looking to go solar but worried about your beautiful tile roof?

You're not alone—homeowners with tile roofs often. The elegance and durability of a tile roof are unmatched, but they present unique challenges when it comes to mounting photovoltaic (PV) panels. Homeowners often worry about cracked tiles, leaks, and the structural integrity of their roof—concerns that are completely valid. As you might guess from the name.
