Energy company uses 60kW off-grid solar container from the Vatican

Overview

The project was planned and managed by BayWa r. with the PV modules, inverters and its installation donated by solar technology provider, SolarWorld. Vatican City is powered by solar. The heart of this change is located at Santa Maria di Galeria, a former Vatican Radio site that has been transformed into a solar. On July 31, at the historic Palazzo Borromeo, the Holy See and the Italian Republic signed a landmark agreement to build an agrivoltaic system in Santa Maria di Galeria. Photo: Vatican Media According to the Vatican's press office, the installation will apply the most advanced solutions currently. A controversial radio site north of Rome is set to become a solar farm as the Vatican pushes its green transition. The Holy See hopes it will. The Vatican, the world's smallest state, is making significant strides toward sustainability, embodying the ecological vision laid out by Pope Francis in his encyclical *Laudato si'*.
