Energy storage power supply for factories

Overview

Essentially, factory energy storage power supplies serve as reservoirs that collect and discharge energy, thus enabling factories to modulate their energy load based on operational needs and external conditions. Historically, industries have relied exclusively on constant power. EVB delivers advanced energy storage solutions especially for industrial and commercial applications. Our modular LFP battery packs are scalable, catering to storage requirements ranging from kWh to MWh. From offsetting peak electricity costs to maintaining stable operations during grid fluctuations, energy storage enables factories to operate. Industrial energy storage refers to the technologies and systems that are employed to store energy generated from various sources, particularly renewable resources, for later use in manufacturing facilities. This concept plays a crucial role in the transition to sustainable industrial operations. At ACE Battery, a trusted leader in industrial backup power and commercial backup power solutions, we deliver tailored industrial battery storage systems and commercial power backup systems powered by advanced lithium technology. Allow for energy cost savings by optimizing usage patterns, 3.

Energy storage power supply for factories

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart I V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
