

## PEES Power Systems

# Energy storage project cost phase has passed

## Overview

---

Passed on J, the legislation largely spares battery energy storage systems (BESS) from the credit reduction that wind and solar projects received. However, BESS developers do need to comply with heightened Foreign Entity of Concern (FEOC) material assistance requirements compared to. US energy storage projects that begin construction by the end of 2033 will remain eligible for investment tax credit (ITC) incentives. During last Friday's Independence Day national holiday (4 July), US President Donald Trump signed the budget reconciliation bill into law. The 'One, Big, Beautiful. DOE's Energy Storage Grand Challenge supports detailed cost and performance analysis for a variety of energy storage technologies to accelerate their development and deployment The U. Energy storage project valuation.
