

## PEES Power Systems

# Energy storage system centralized procurement forecast

## Overview

---

Through in-depth quantitative analysis, robust forecasting models, and expert interpretation, the report highlights key growth drivers, demand patterns, technological advancements, regulatory shifts, and regional performance differences that are critical for long-term planning. California will solicit up to 2 GW of long-duration energy storage resources as part of a 10.6-GW centralized procurement for emerging clean energy technologies to be deployed between 2031 and 2037, the California Public Utilities Commission said Aug. This decision, which implements Assembly Bill 1373 (Stats. 36), will bolster California's efforts to. Current Market Size & Forecast: The global humanized mouse model market was valued at approximately USD 300 million in 2023. It is projected to grow at a compound annual growth rate (CAGR) of around 12% over the next five years, reaching an estimated USD 530 million by 2028. 6 GW of floating offshore wind—in total representing close to 20% of. For instance, during the February 2021 Texas power crisis, wholesale electricity prices spiked to \$9,000/MWh, creating a \*\*\$11 billion revenue opportunity\*\* for storage systems that discharged stored energy. Lithium-ion battery systems, with levelized costs of storage (LCOS) falling to \$132-245/MWh.

### Centralized Energy Storage System Market Size, Industry Share

Centralized Energy Storage System Market size stood at \$32.4 Bn in 2024 and is forecast to achieve \$78.9 Bn by 2033, registering a 10.3% CAGR from 2026 to 2033. Explore comprehensive market ...

### CPUC Authorizes Procurement of 10.6 GW of Clean Energy ...

The decision identifies four types of LLT resources that DWR may procure through centralized solicitations: offshore wind, geothermal, multi-day long-duration energy storage, and long ...

### Energy Storage Targets , State Climate Policy Dashboard

An overview of Energy Storage Targets across 50 U.S. States, with state-by-state policy progress, key resources, and model rules.

## A 2025 Update on Utility-Scale Energy Storage Procurements

While the energy storage market continues to rapidly expand, fueled by record-low battery costs and robust policy support, challenges still loom on the horizon--tariffs, shifting tax incentives, ...

## California targets up to 2 GW of long-duration storage as part of 10.6

California will solicit up to 2 GW of long-duration energy storage resources as part of a 10.6-GW centralized procurement for emerging clean energy technologies to be deployed between ...

## Centralized Energy Storage System Market Procurement Trends, ...

Designed for CEOs, investors, and senior executives, this report delivers a comprehensive evaluation of current market dynamics, competitive landscapes, and emerging ...

## CPUC Advances Clean Energy with Centralized Procurement

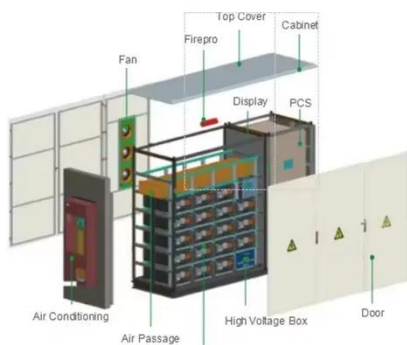

...

"Today's procurement authorization issues a challenge to the industry, and we want to see developers deliver on the immense potential of these technologies to deliver tangible ratepayer ...
