How Onsite Solar Can Transform Your Energy Strategy , Trio

Onsite solar is an asset located where the renewable energy generated will also be consumed. There are three main types of onsite solar: rooftop, ground-mount, and carport.

Renewable Onsite Solar Power

Reduce utility costs, achieve energy independence and meet your sustainability goals by generating your own on-site power-and even selling surplus energy back to the grid.

On-site renewable energy

Replace energy from your local grid with cleaner power from integrated on-site solar and storage systems. Generate and store electricity to protect against outages, avoid price spikes, and maximize ...

Homeowner's Guide to Solar , Department of Energy

You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. While there is not a universal solar energy solution, in this ...
