

PEES Power Systems

How many years is the warranty for photovoltaic panels and components

Overview

Product warranty: 25 years, covering repair, shipping, and all components of the solar system. A 10-year warranty is also offered for storage and monitoring equipment. While solar energy systems are built to withstand decades of outdoor use, the right warranty coverage assures extra peace of mind by protecting your investment against potential malfunctions, damage, or underperformance. But like any product exposed to the elements, things can go wrong. Whether it's a manufacturing defect, a sudden performance drop, or wear and tear over time, you want to be protected.
