# How much does the old photovoltaic panel cost

## Overview

---

The cost of an old solar panel can vary greatly, depending on multiple factors. Generally, one can expect to pay anywhere from \$100 to \$500 for an older unit. Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. A new 10 kilowatt (kW) solar panel installation costs \$2.75 per watt or \$19,250 after applying the 30% federal tax credit. Ready to go solar?
