

## PEES Power Systems

# How to clean dust from photovoltaic solar panels

## Overview

---

To clean solar panels, start by turning off the system for safety. Then, remove any loose debris with a brush or leaf blower. This guide shows you how to clean solar panels safely and effectively—backed by expert tips and the latest best practices for DIY and professional options. Before diving into cleaning methods, it's essential to understand why dust and debris accumulate on solar panels. While natural rainfall helps rinse away some dirt and debris, relying solely on it may not be enough—especially if you live in certain environments. Dust, bird droppings, pollen.
