# How to install the photovoltaic panel snow hook

## Overview

---

Here's a step-by-step guide on how to properly install snow guards on a roof with a solar panel system. This a simple DIY solar panel mount that will keep your panels snow free when you aren't there to clean them off. in this video I show you how to build this mount and how it works. Before installing snow guards, it's important to assess the roof's slope, the type of solar panel installation. It is a barrier placed between or on the edges of solar panels to stop small avalanches that happen with rooftop solar. These snow guards catch sliding snow, preventing it from falling all at once.
