How to register a photovoltaic panel cleaning company

Overview

Visit your local government's business website or call the local business bureau to learn about licensing requirements for cleaning services in your area. Conduct Solar Panel. The first step in starting a solar maintenance service is obtaining a general business license. First, gauge your local market size. A business license is an official permit that allows you to exchange your service for money in the jurisdiction where you legally live. There are very few licenses that are required for.
