# Installation of photovoltaic panels on cement tiles

## Overview

---

This comprehensive guide exists because homeowners consistently ask the same question: Can I safely install solar panels on my concrete tile roof without damaging it?

The answer is yes, but only with proper techniques and experienced professionals. Installation Method Selection is Critical: The three primary installation methods (tile hooks, comp-out, and tile replacement mounts) each serve different scenarios. So, can you install solar panels on a tile roof?

The short answer is yes—but it. Installing a solar photovoltaic (PV) system on a concrete tile roof requires a distinct and specialized approach compared to installations on more common roofing materials like asphalt shingles.
