# Is Shouhang Hi-Tech a solar inverter

## Overview

---

Unlike traditional solar panels that sulk when clouds roll in, Shouhang's system uses mirrors to concentrate sunlight onto a receiver, heating molten salt to temperatures that could roast a turkey in seconds (we're talking 565°C!). Shouhang High-Tech Energy Technology Co. was founded in 2001, with its headquarter located in Gansu Province and its production base in Tianjin and Gansu. Shouhang High-Tech takes "Clean Energy and Energy Conservation and Environmental Protection" as its business development strategy, and is. In April 2023, the National Energy Administration issued a notice to promote the large-scale development of solar thermal power generation, striving to increase the annual operating scale of solar thermal power generation in China to around 3 million kilowatts during the 14th Five Year Plan period. Shouhang energy storage inverters are advanced devices designed to enhance the efficiency of renewable energy systems, specifically focusing on energy storage solutions. These inverters serve as a critical link between energy generation sources, such as solar panels, and battery storage systems. (Yicai) March 8 -- Shares of Shouhang High-Tech Energy Technology jumped after the major Chinese supplier of power plant air cooling systems won an order worth about CNY429 million (USD60 million) from a unit of a contractor set to build a solar thermal power plant. In a bulletin announcing the 100-MW plant's startup Shouhang likens it to, "a systems with the present power grid. Lovsun Solar 550W 580W 600W Half-Cell Solar In the photoelectric industrial park to the west of Qili Town, the project has a heat storage system, which can achieve.
