Is photovoltaic glass laminate a scam

Overview

We'll walk you through the most common solar scams, the red flags that should make you pump the brakes, and how to find installers you can actually trust. Disclaimer: This article is intended to provide an informational overview of consumer protections for interested homeowners. However, as the solar industry grows and more companies compete for your business, you might notice an uptick in misleading solar advertisements or sales practices — or even outright scams. With a. Solar scammers aren't that creative. That's not to say solar panel. While the best solar panels can offer significant benefits, including reduced energy costs and a smaller carbon footprint, the growing industry has unfortunately attracted its share of scammers and unethical companies. These bad actors prey on homeowners' lack of knowledge about solar technology.

Is photovoltaic glass laminate a scam
