# Jinlang photovoltaic panels are out of stock

## Overview

---

Minsheng Securities has recently assigned a buy rating to Jinlang Technology following their research and the publication of a report titled “2024 Annual Report and 2025 Q1 Report Review: Q1 2025 Net Profit Improves Sequentially, Inverter Trend is Positive. ”. Jinlang Technology has recently announced the sale of four subsidiaries for a total of 29.059 million yuan, with the equity change registration already completed. This is not the first time the company has disposed of subsidiaries; between 2024 and June 2025, it canceled 505 subsidiaries and. At Alternergy we supply a high quality range of specially selected solar PV panels from manufacturers with an excellent pedigree. Aside from offering quality solar products, we believe that these companies are able to meet their long warranty commitments. While this transaction may seem like a routine asset sale, it actually reflects a broader strategy in which the company has canceled 505 businesses and transferred 72. Shares of Chinese solar panel makers surged Wednesday after local media reported that staff linked to Elon Musk had recently visited several photovoltaic suppliers in China, sparking speculation that a high-profile customer could boost demand for advanced products. The reports fueled talk of a. China's top solar companies—including Longi, Trina, Jinko, JA Solar, and Tongwei—cut around 87,000 jobs last year. A government-driven factory boom (2020–2023) has backfired, flooding the market with solar panels—twice global demand—collapsing prices and leading to a \$60 billion industry loss. SHANGHAI - More Chinese solar manufacturers are falling into restructuring or bankruptcy, with a deepening oversupply and fierce price wars causing massive financial losses and threatening many.
