

PEES Power Systems

Lease of solar power system

Overview

Under a solar lease, a third-party owner (typically a solar company) installs solar panels on your property and then sells you the electricity produced at a predetermined monthly rate. If you want to enjoy the many benefits of utilizing solar energy to power your home but are concerned about costs, solar leasing may be a great option for you. To explore whether solar leasing is right for you, it's important to know what leasing provides and more importantly, how it works. If you value keeping your capital available and want a hands-off. Solar leasing allows homeowners to use energy from rented solar panels. You save on electricity bills without the upfront cost or maintenance, while the provider guarantees performance and handles services. This guide breaks down the.
