

PEES Power Systems

Liberia load shifting

Overview

The power shortage has triggered widespread blackouts across Monrovia and its surroundings, forcing LEC to intensify load-shedding schedules, leaving thousands of homes and businesses without electricity for extended periods.

MONROVIA – Power shedding remains a major part of the Liberia Electricity Corporation's plan in dealing with the power crisis rocking the nation since the start of last year dry season. By Lennart Doodoo, ldoodoo@frontpageafricaonline.com

In LEC's recent performance report which encapsulates the its. Liberia is facing a deepening electricity crisis after Côte d'Ivoire slashed power exports to the country by 85%, dealing a major blow to businesses and households already struggling with high energy costs. The Liberia Electricity Corporation (LEC) announced that its power supply from Compagnie.
