

## **PEES Power Systems**

# **Myanmar luyin invests in energy storage project**

## Overview

---

Luyin's commitment to innovation within the energy storage realm is evident through its investment in research and development. The company is focusing on advanced storage technologies, including but not limited to lithium-sulfur batteries, solid-state batteries, and flow batteries. Key partnerships are being established to. Luyin (Shouguang) New Energy Co. is a holding subsidiary of the company and falls within the scope of the company's consolidated statements; the Luyin 150MW photovoltaic power generation project was connected to the grid on Decem, and the project has now been officially put into. Myanmar presents a burgeoning opportunity for investment in renewable energy, particularly in solar photovoltaic (PV) projects and Battery Energy Storage Systems (BESS). As the nation continues to develop its infrastructure and increase access to electricity, renewable energy sources are crucial. The Myanmar Energy Storage Systems Market is experiencing significant growth driven by the country's increasing energy demand and efforts to integrate renewable energy sources into the grid. It plays a crucial role in enhancing energy efficiency, 3. The organization has set ambitious goals.

## Myanmar luyin invests in energy storage project
