Nassau green electricity

Overview

Helping Nassau residents and businesses find affordable electricity plans with transparent pricing and expert local guidance. The Long Island Regional Clean Energy Hub is a program designed by NYSERDA (New York State Energy Research and Development Authority) and administered by Cornell Cooperative Extension of Nassau County. The Hub is supported through a coalition of community based organizations, including: Molloy. Officials from all three Nassau County towns came together in Island Park on Tuesday, April 1, to fight back on recent state initiatives to push for more large-scale energy projects in the area. Bruce Blakeman, the Nassau County Executive, is actively campaigning against wind energy projects off Long Island's coast, particularly targeting the Empire Wind 1 project. With significant offshore wind farms under development, the recent revocation of a critical.
