

PEES Power Systems

New Zealand Off-Grid Solar Containerized High-Pressure Type

Overview

Made by Power Station in New Zealand, it's a fully off-grid solar power system that can be installed in an existing grid-connected home. The grid connection is used only as a backup to top up your batteries when required. Powered by TBB Matrix II technology and Sinclair Energy expertise. Engineered for complete energy independence — modular, scalable, and built for NZ conditions. [Why Go Off-Grid with Sinclair?](#)

We specialise in TBB. Project PurposeDue to New Zealand's unique geographical environment and emphasis on renewable energy, it has become an important target market for containerized energy storage systems. The combination of diverse energy generation and storage, rapid deployment and remote monitoring makes PowerCrate an ideal solution for your remote energy needs: off-grid, edge of grid or boosting energy. If you are a total beginner, go ahead and download our Free Report “The Ultimate Guide to Off Grid Solar NZ” and check out our most popular article, [Off-Grid Solar for Dummies](#). You can also find more useful stuff in our [Blog](#).
