# New Zealand explosion-proof solar panel manufacturer

## Overview

---

100% Kiwi owned, Taspac was founded in 2014 with a very simple goal – to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales, technical and warranty support. Taspac Energy is NZ's premium supplier of Solar PV and Energy Storage Solutions. Their innovative approach and expertise in electrical services contribute to enhancing community access to affordable. Our preferred brand is Trina Solar which is Tier 1, and among the largest solar manufacturers in the industry with a proven track record and a culture of continual technological improvement. In most instances we offer the standard 330W panels but in a commercial setting the larger 440W modules may. The MSP20Ex solar module is an ATEX classified photovoltaic module for use in isolated systems where no electrical power is available, typically on offshore oil and gas platforms classified as a gas explosion risk area. This high quality green power supply system with virtually no downtime, allows you to power almost any system on remote or offshore applications like: For hazardous area applications such as LNG or oil and gas terminals, we can. As a proudly New Zealand owned and operated business, we specialise in developing, engineering, constructing, and maintaining solar farms and commercial/industrial rooftop projects across the country. We have successfully delivered over 3 MWp of rooftop projects in the last 3 years

Developing a.
