

PEES Power Systems

Photovoltaic panel lift motor

Overview

This innovative tool enables you to lift solar modules to the roof with ease and precision, making installation faster, safer, and more efficient. With its compact design and simple operation, Module Lift is ideal for both residential and commercial solar installations. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. An operator pulls the rope to. The TranzVolt is a battery powered, solar panel hoist, which allows for the vertical lift of modules to the rooftop. This is an excellent option for projects located in remote, off grid, or new construction areas where power is not readily accessible.

Photovoltaic panel lift motor

Solar Panel Lift

Solarlift options include the GEDA Lift 200 Standard and the GEDA Lift 250Comfort, available with a single lift speed. For job sites requiring more flexibility, the Fixlift 250 is built with two lift speeds that ...

Module Lift: Premier Solar Panel Lifter

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.
