Photovoltaic panels in Zhu collapse area

Photovoltaic panels in Zhu collapse area

Storm brewing in China's solar-panel sector threatens to spiral out of

Within days of a nascent Opec-style agreement by Chinese solar photovoltaic (PV) manufacturers to end a bruising price war and curb oversupply, the pact was on the brink of unravelling.

China's Solar Industry Crisis: Overcapacity and Plunging Prices

China's dominance in solar panel manufacturing is facing a significant challenge as the industry grapples with overcapacity and plummeting prices. This has prompted leading ...

China's solar industry has entered 'ice age', needs state support: GCL

Beijing needs to urgently intervene and rescue the glut-ridden solar equipment industry in China, which holds 80 per cent of the global manufacturing capacity after years of state subsidies, a

China solar industry faces challenges, but rock-bottom prices to

China accounts for 80 per cent of solar module production capacity after years of subsidies, driving oversupply that has triggered a collapse in global prices and provoked import ...

China's solar meltdown deepens as U.S. tariffs trigger mass exodus to

The U.S. has imposed strict tariffs not just on Chinese-made panels but also on those produced in Chinese-owned factories in Southeast Asia. As a result, China's solar exports fell by 8% ...
