

PEES Power Systems

Photovoltaic panels instead

Overview

Between community solar, solar shingles, ground-mounted solar panels, and solar sheds or carports, there are several alternatives that let you benefit from solar without installing a rooftop system. Green energy alternatives for homes exist that don't require installing solar panels. If you're a renter or a homeowner who can't install solar panels on your property, you can still harness the sun's power for clean electricity by joining a community solar project. Most homeowners save around \$60,000 over 25 years. Community solar is one of the best ways to enjoy the benefits of solar without putting solar equipment on your property. Rooftop solar isn't always the best option, but there are great alternatives to traditional solar panels. Rooftop solar panels are a great way to generate free, clean electricity. And when it comes to energy consumption, we all know that electricity bills.
