

## PEES Power Systems

# San Diego Base Station solar

## Overview

---

The facility at Naval Base San Diego enables the integration of renewable energy sources (such as solar) and supports the military's mission of energy security. The Department of Defense, Defense Innovation Unit was invaluable in their advocacy for rapid prototyping to field a dual-use electric vehicle charging facility that solves operational challenges and meets federal and state clean energy initiatives. United States Naval Facilities, Southwest and EDISON, N., Ma(GLOBE NEWSWIRE) -- Eos Energy Enterprises, Inc. (NASDAQ: EOSE) ("Eos" or the "Company"), America's leading innovator in designing, manufacturing, and providing zinc-based long duration energy storage systems sourced and manufactured in the United States, today. DECEM- The California Energy Commission (CEC) approved two grants totaling \$50 Million for Long-Duration Energy Storage (LDES) projects at Marine Corps Base Camp Pendleton and Naval Base San Diego at a meeting in San Francisco, Dec. 5-megawatt (MW) solar photovoltaic system with 2. Once fully operational, the microgrid solution will provide resiliency, incorporate renewable energy, and allow operations at. Terra-Gen is one of the largest integrated and independent renewable energy power producers in the United States. We are an end-to-end project development, financing and operating company producing quality, utility-scale renewable power across a diverse set of technologies.
