

## PEES Power Systems

# Sanaa battery life

## Overview

---

An overall rating of 40h means that you'll need to fully charge the device in question once every 40 hours if you do one hour of 3G calls, one hour of video playback and one hour of web browsing daily. You can sort the table by either overall rating or by any of the individual test components that's most important to you - call time, video playback or web. This page puts together the stats for all battery life tests we've done, conveniently listed for a quick and easy comparison between models. Discover the best phone battery life results from all smartphones tested in our independent lab. 32 likes &#183; 2 talking about this. ?
