

## PEES Power Systems

# Santo domingo first solar

## Overview

---

A central aim of the Renewable Energy Promotion Law of 2007 in the Dominican Republic has been to lessen the country's carbon footprint. Towards this goal is the construction of a 11.44 MWp solar PV plant in Santo Domingo Este. Metaldom announced the installation of a 4 MW photovoltaic plant in collaboration with Soventix Energy, with the aim of strengthening its transition to clean energy sources and ensuring more efficient and sustainable operations. A staggering 24 new power generation plants or parks are currently under construction across the nation. Cotosolar Holding and ACCIONA Energía has begun supplying grid power from the 163 MW Cotoperí Solar complex—serving 166,000 households in La Romana. [Link copied! Copy failed!](#) Cotoperí Solar was built with a 51% to 49% partnership between ACCIONA Energía and Cotosolar Holding. Image Source: Acciona. In this region, PepsiCo began its journey of harnessing solar energy in 2019 and, to date, has managed to reduce nearly 49 thousand tons of carbon dioxide (CO<sub>2</sub>) emissions in its manufacturing and transportation activities, which is equivalent to the total CO<sub>2</sub> emissions generated by approximately. DOMINION Green is building the La Victoria solar park in Santo Domingo, with 64.7 MWp and 99,000 panels, generating 112,000 MWh/year of clean energy for thousands of homes. Here, too, photovoltaic technology is the.

## Santo domingo first solar

---

### **Dominican Republic will be the country with the largest solar power**

In the framework of Environment Day, 456 more panels will be inaugurated this June, making the Caribe Plant the site with PepsiCo's largest solar energy generation in Latin America.

---

### **F& S Solar**

The rising import price of this limited energy source is leading to increased interest in solar power. In addition, the island state is suffering from a continuous shortage of electricity, which makes the ...

---

### **Parque fotovoltaico La Victoria: DOMINION impulsa la energía solar ...**

Since work began in 2023, our team has led the development of this ambitious project, which has an installed capacity of 64.7 MWp and almost 99,000 solar panels, capable of generating more than ...

## Santo Domingo Pueblo 3D Prints Materials for its First Large-Scale

They're now in the process of creating the Pueblo's first large-scale solar farm, a project that'll help get energy to internet towers to boost broadband services.

## Leading global provider of comprehensive PV solar solutions , First Solar

Driven by a passion for innovation and powered by American ingenuity, First Solar has consistently invested in American manufacturing and American jobs. Today, it is the only US-headquartered ...

## Dominican Republic's Solar Boom: 140+ MW Added

The Dominican Republic's national energy commission has approved a new 83.4-MW/101.6-MWp solar project with storage, as well as inaugurated a 58.48-MW/64.70-MWp solar ...

## Dominican Republic: Harnessing Solar Potential to

## Increase Energy

The project involves setting up a 5.3 km transmission line to connect the solar plant to the Maranatha 69 kV substation and a 500m<sup>2</sup> solar hybrid greenhouse to demonstrate solar power's role in sustainable ...

## Metaldom moves toward energy independence with new solar plant

Santo Domingo, Janu. Metaldom announced the installation of a 4 MW photovoltaic plant in collaboration with Soventix Energy, with the aim of strengthening its transition to clean energy ...

## ACCIONA & Cotosolar begin 163 MW solar feed in La Romana

Spain-headquartered ACCIONA Energía, a subsidiary of ACCIONA S.A, has started feeding electricity into the grid from Coperí Solar in La Romana. The 163 MW complex includes ...

## Clean energy drives billions in investment across the

## Dominican

In Greater Santo Domingo, the five ongoing projects represent an investment of US\$674.2 million. Four of these will harness solar energy, while one significant natural gas plant, located in ...
