

## PEES Power Systems

# Shan Power Plant Wind Power Project

## Overview

---

Shanghai has approved the Fengxian 1# offshore photovoltaic project, the first commercial-scale solar-wind hybrid of its kind in China. The move marks a major step forward in the city's efforts to build a modern maritime hub powered by clean energy. Utilize energy-saving and environmentally friendly new materials and technologies to minimize carbon dioxide emissions. This image shows an integrated offshore wind and solar energy project that combines wind turbines with photovoltaic arrays at sea. 4MW offshore wind power project. It is planned in East China Sea, Shanghai, China. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the partially active stage. It will be developed in multiple. Global Wind Power Tracker, a Global Energy Monitor project. It includes wind farm phases with capacities of 10 megawatts (MW) or more.

## Shan Power Plant Wind Power Project

---

### Company Profile-SHAN POWER

1986 China's first wind farm - Malan Wind Power Plant was officially connected to the grid to generate 165KW in Shandong Peninsula

---

### Power plant profile: Fengxian Offshore Wind Farm, China

Fengxian Offshore Wind Farm is a 414.4MW offshore wind power project. It is planned in East China Sea, Shanghai, China.

### Top five onshore wind power plants in operation in China

Listed below are the five largest active onshore wind power plants by capacity in China, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide a ...

---

## Shanghai Fengxian

The project is part of China's efforts to expand its renewable energy capacity, particularly in offshore wind power. It aligns with national goals to reduce carbon emissions and increase the

## Shan wind farm

To access additional data, including an interactive map of global wind farms, a downloadable dataset, and summary data, please visit the Global Wind Power Tracker on the Global Energy Monitor website.

## Shanghai Fengxian Offshore wind farm

To access additional data, including an interactive map of global wind farms, a downloadable dataset, and summary data, please visit the Global Wind Power Tracker on the Global Energy Monitor website.

## Global Layout-SHAN POWER

The Yunnan-Guangzhou  $\pm 800$  kV UHVDC transmission project was successfully put into operation with a single pole,

which is the world's first UHVDC transmission project.

---

## Global Wind Power Tracker

A wind project phase is generally defined as a group of one or more wind turbines that are installed under one permit, one power purchase agreement, and typically come online at the same time.

---

## Shanghai greenlights pioneering offshore solar-wind hybrid project

Located off the coast of Fengxian district on the northern shore of Hangzhou Bay, the project forms part of Shanghai's broader strategy to integrate offshore wind and solar energy. It will be co-located ...
