Smart grid kampala

Schneider Electric launches smart village solar solution to tackle

KAMPALA - In a big boost to Uganda's rural electrification efforts, Schneider Electric has launched its innovative Climate Smart Village solution to help bring affordable solar-powered ...

Feasibility Assessment of the Smart Grid in Uganda

The smart grid will provide the necessary infrastructure to enhance efficiency and reliability, as digital technology and smarter technologies will be implemented throughout the grid.

Samanga Utilities

Providing sustainable power systems and smart grid technologies that drive progress and efficiency for a cleaner future. Developing advanced mobility platforms and smart transport infrastructure that ...

Uganda, Schneider Launch Smart Solar

Key Figures & Findings: At the Energy Access Investment Forum (EAIF) 2025 in Kampala, Schneider Electric, a France-headquartered global leader in energy management and ...

Energy storage(KWH)

102.4kWh

Nominal voltage(Vdc)

512V

Outdoor All-in-one ESS cabinet

Sustainable urban transportation planning: Integrating an electrified

By extending the electrical grid and electrifying the bus fleet, Kampala can reduce its carbon footprint and improve the reliability and efficiency of its public transportation system.

Africa Electricity Symposium

Our mission is to drive advancements in electricity infrastructure, renewable energy integration, and smart grid technology across Africa, creating sustainable solutions for the continent's growing energy ...

Smart Grid Technology: Enhancing Efficiency and Reliability

The smart grid will provide the necessary infrastructure to enhance efficiency and reliability, as digital technology and smarter technologies will be implemented throughout the grid.

Schneider Electric introduces Climate Smart Village solution for Africa

At the ongoing Alliance for Rural Electrification Energy Access Investment Forum (EAIF) in Kampala, the company has launched its Climate Smart Village solution for the region on top of ...

International Conference on Smart Grid Engineering Applications of

Discover the International Conference on Smart Grid Engineering Applications of Blockchain (ICSGEAB) to be held on 30th April 2026 in Kampala, Uganda. Plan your participation today!

Feasibility Assessment of the Smart Grid in Uganda

This study aimed at assessing the technical ability of the smart grid as a solution to Uganda's power system's challenges mainly focusing on rampant nationwide blackouts.
