

PEES Power Systems

Solar Power Generation Operation and Maintenance Company

Overview

This guide explores the vital role of comprehensive solar power plant O&M services, detailing the key strategies and activities that ensure your solar asset operates at its maximum potential, day in and day out. SaveGeo offers a wide range of services based on your plant's sourcing strategy, infrastructure and degree of expertise in the solar energy spectrum. Our team of experts operate and maintain solar power systems by providing time-to-time report on solar power generation. We help our clients achieve their availability, reliability. Our comprehensive, best-in-class O&M suite is designed to keep your solar and battery energy storage system (BESS) performing at peak levels - so you get the highest return on your renewable energy investment, even if Solect didn't install your system. Our skilled and experienced technicians. Highly skilled engineers and technical specialists provide first-class operations and maintenance support. Providing specialist consultancy and advisory services throughout the full project lifecycle across wind, solar and energy storage. Gr eenskies currently manages over 340+.
