Solar energy for the environment dodoma

Overview

Solar energy technologies and power plants do not produce air pollution or greenhouse gases when operating. Using solar energy can have a positive, indirect effect on the environment when solar energy replaces or reduces the use of other energy sources that. Today, the Ministry of Energy (MOE), in partnership with the United Nations Development Programme (UNDP) and the European Union (EU), inaugurated the Energy Efficiency Project Office, a 146kW Solar PV system, and two electric vehicles in Dodoma. This initiative, part of the three-year. Dodoma, Tanzania, situated at latitude -6. 7356, presents a favorable location for solar energy generation throughout the year.
