

PEES Power Systems

Solar panel home power generation equipment

Overview

To go solar, you'll need solar panels, inverters, racking equipment, and performance monitoring equipment--at a minimum. Depending on where you live, you may also consider a solar battery. Solar generators, also known as solar power stations, are an eco-friendly way to harness energy from the sun to run electric appliances and charge digital devices. Once considered overly expensive. . The right setup comes down to usable capacity, steady output, and charging speed, so you are not stuck waiting to recharge during an outage. But different product options and brands can. Solar generators can make your life a little easier on a good day or save you on a bad day. They're great in an emergency, but they're also essential tailgating and camping equipment.
