Solar panels in Gabon

Overview

The country offers various opportunities for solar investment, from utility-scale projects to distributed generation solutions. The Gabonese government has set an ambitious goal: to achieve 100% renewable energy by 2025. This commitment is reflected in. In November 2024, Gabon inaugurated its first utility-scale photovoltaic plant on 251 hectares at Ayémé Plaine, just 30 km northeast of Libreville. Developed and operated by Solen SA Gabon under a 25-year PPA with SEEG, the plant began with 11 MW of capacity. With plans to expand from 11 MW to 30 MW, the plant is set to reduce fossil fuel dependence and provide clean energy to over 300,000 homes. These include solar components (solar panels, inverters, batteries), off-grid and grid-tie solar systems for commercial, industrial and residential applications, battery energy storage systems, energy efficient LED.
