Overview

Sunrun installation costs range from \$15,000 to \$30,000, with the national average cost of approximately \$18,000 for an average-sized home. If you sign a solar lease, you pay a flat monthly "rent" to Sunrun in exchange for electricity. If you sign a PPA, you commit to paying a fixed rate per kilowatt-hour (kWh) for the electricity your solar panels generate, which means your monthly payment will fluctuate depending on how much energy. Get the latest solar and battery technology with Sunrun's best selling solar lease— a solar subscription without the costs of ownership Solar made simple. Find the best solar pros in your area. Loans and purchases are also available for buyers who prefer full ownership. 513 over the remaining life span.
