# Sweden Off-Grid Solar Energy Storage Cabinet with Ultra-Large Capacity

## Overview

---

The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh. This milestone investment represents a significant step toward Sweden's goal of achieving a carbon-neutral energy. NÜRTINGEN, Germany-- (BUSINESS WIRE)-- ADS-TEC Energy (NASDAQ: ADSE), a global leader in battery-buffered, ultra-fast charging technology and large-scale storage, today announced that it has installed eight large-scale storage containers, the most powerful modular large-scale storage solution in. The storage containers from Ads-Tec can push the stored electricity into the grid with an output of 30 megawatts. The storage power plant will stabilise the power supply in the greater Stockholm area. It is part of a total package of 100 megawatts of storage capacity. Ads-Tec, the supplier of. Romina Pourmokhtari, Sweden's Minister for Climate and Environment, officially inaugurated the largest energy storage park in the Nordic region. Its core function is to convert renewable energy such as solar energy and wind energy into stable electricity, and realize energy storage, distribution and monitoring through intelligent energy.
