SEK 130 million for smart solar cells to replace disposable batteries

A new type of solar cell aims to reduce the use of disposable batteries. The Swedish Energy Agency is now granting SEK 130 million in funding to Exeger. Exeger's technology is based ...

Energimyndigheten (via Public) / SEK 130 million for smart solar cells

The technology is built on Swedish research, and the solar cells are produced through a supply chain that is primarily European. Unlike conventional solar cells, they are not dependent on ...

Top 35 Green Energy startups in Sweden 2026

Epishine manufactures low-power printed solar cells for sensors, electronic price tags, locks and other electronics. These solar cells require no sunlight to operate, meaning they can be ...

Swedish Company To Build 1.2 GW Solar Manufacturing Plant

The 1.2 GW fab will have a capacity to roll out more than 2.5 million solar panels/year. It claims these panels, once installed, will produce about 1.5 TWh clean energy equivalent to roughly ...

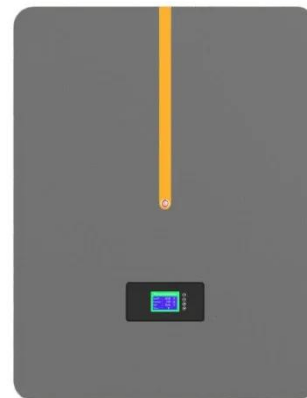

Exeger now delivering Powerfoyle solar cells from Stockholm II

Exeger is a Swedish company with a unique solar cell technology that converts all forms of light into electrical energy. This material, Powerfoyle, is the world's only fully customizable solar ...

The Swedish Solar Stroll: A Dissection of the Market in the First Half

Explore the developments in Sweden's solar energy market for the first half of 2024. Despite a slowdown compared to 2023, residential and medium-sized installations continued to ...

Midsummer receives turnkey 15MW thin-film solar cells machinery order

As the company secured machinery orders for other companies to develop solar cell manufacturing lines, it aims to build its own 200MW annual production line for thin-film copper indium ...
