Three-phase technical support for data center battery cabinets

Overview

Available in power ranges from 9kW to 27kW, and multiple form factors for 19 and 21-inch data racks, these highly efficient power shelves support single-phase and three-phase power configurations. Please contact us to assist with your customized power solution needs. Eaton has a variety of industry leading three-phase UPS solutions that deliver efficiency and scalable battery runtimes while offering a smaller footprint and lower total cost of ownership. Introducing a next-generation modular and transformerless UPS design, Vertiv™ Liebert® APM2, a feature-rich high-density UPS that brings exceptional and innovative features for mission-critical. A data center UPS system achieves this through a battery that stores electrical energy. The scalable modular designs can be configured as a tower, side-by-side, or integrated within a rack. This series of products include Smart App Online UPS Systems, Battery. Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. On the front of the power shelf is a slot for an optional Shelf Controller along with multiple slots for Power Supply Units (PSUs).
