# Warranty for ultra-large capacity pv distribution units model 2026

## Overview

---

The California Energy Commission makes no claim or warranty on the equipment and its safety, performance, or durability. This document describes the warranty conditions for Huawei residential Smart PV solutions. The CEC developed the Solar Equipment Lists under Senate Bill 1 (Murray, Chapter 132, Statutes of 2006), establishing criteria and standards for solar incentive programs under. The warranty and service conditions are also applicable to the warranty extension period. Warranty commences from the 180th day after the date of the product shipment from Huawei, or the date on which Huawei receives a formal service request for the product, whichever is earlier. Warranty commences. Recycled cardboard content is minimum 70% (50% in US). The energy efficiency of this Product is at least 10% better than market average or product previous generation. A hybrid system can save up to 80% on fuel costs, reduce emissions, noise, service intervals, and overall logistics, while ensuring uninterrupted clean power at all times. Our versatile hardware can be customised for almost any power challenge and has been utilised across various industries for. 7. 2kW output per unit, scalable to 21. <sup>2</sup> Start with 6kWh capacity and expand to 90kWh, adapting to household size or energy demands. 20 ms auto-switchover, 12 customizable circuits with single-circuit control by using the EcoFlow Smart Home.
