Overview

Portable power banks provide convenient, on-the-go charging for smartphones, tablets, and other electronic devices. They have become essential for people who spend time away from traditional power sources, whether traveling, commuting, or during outdoor activities. Whether you own one of today's best iPhones or best Androids, you could use a power bank. We've tested all of the best power banks to make sure they are fast. These portable chargers and power banks give you the most boost when you're out of juice. As a tech journalist with 20 years in mobile, software, and gadgets, Iyaz writes about hits, misses, and everything in between. The NOBIS 20000mAh leads with 35W PD 3.0 charging, reaching 61% iPhone capacity in 30 minutes, while the ultra-slim VEEKTOMX 10000mAh offers built-in cables and TSA-friendly design at just 0. If you're looking for a new smartphone to pair with your shiny new power bank, take a look at our hand-picked selection of the best smartphones, and the best mid-range phones for something a little more. Whether you're a glued-to-your-screen smartphone owner who can never make it through a day on a full charge, or you just need an occasional battery boost, USB power banks are a panacea for low-battery anxiety.

What are the portable mobile power banks
