

## PEES Power Systems

**Who will be subsidized by the government for installing photovoltaic panels**

## Overview

---

Manufacturers, local governments or utility companies can offer solar rebates. Many states have special solar incentives for low- and moderate-income (LMI) families and underserved communities. Whether you're a low-income homeowner or a rural resident, there are plenty of grants and funding options in 2025 to make solar energy accessible, affordable, and efficient. In this guide, we'll walk you through the best government grants, benefits, panel types, and financing options— all in a. The ITC — also known as the Federal Solar Tax Credit — is a popular tax rebate program offered by the US Federal Government for homeowners looking to switch to clean, renewable solar power. Any system installed after this year won't qualify for the discount that's helped millions of households cut thousands off their installation costs. We're here to help you navigate.
