Wind Chase Outbreak Movie

Highvoltage Battery

Overview

Outbreak is a 1995 American medical disaster film directed by Wolfgang Petersen and written by Laurence Dworet and Robert Roy Pool. The film stars Dustin Hoffman, Rene Russo and Morgan Freeman, and co-stars Donald Sutherland, Cuba Gooding Jr., Kevin Spacey and Patrick Dempsey. The film focuses on. A team of Army doctors struggle to find a cure for the deadly Motaba virus that was transported from Africa to North America by a white-headed Capuchin monkey and is now spreading quickly throughout a small California town. An under-rated action-packed thriller from start to finish! I loved this. Wolfgang Petersen's "Outbreak" is a clever, daunting thriller about such a possibility. A deadly airborne virus finds its way into the USA and starts killing off people at an epidemic rate.
